## PROFESSIONAL EXPERIENCE

### Software Developer, Decagon Institute

Jun 2021 – present | Lekki, Nigeria

- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Updated old code bases to modern development standards, improving functionality.
- Led version control efforts for organization, employing public and open source repositories.
- Participated in software field testing to verify performance of developed projects.
- Introduced agile methodologies and development best practices to division to enhance product development.
- Designed intuitive graphical user interfaces to improve user experience.
- Discussed issues with team members to provide resolution and apply best practices.

## PROFILE

I am a passionate Full-Stack Software Developer with a hands-on, high-energy approach. I have well-developed skills in Agile methodology and I am versed in writing maintainable code to create reliable and user-friendly systems. True team player with strengths in adaptability and accuracy.

## PROJECTS
